Fabulous Farm To Fork!

On three different mornings this week, the Y5 children visited Tesco Extra at Eston junction. The children learned how food is produced and were shocked to find out how much sugar is in different types of breakfast cereals.

The children went to Tesco for a fun morning and to expand their knowledge of food and sugar levels. They had lots of different activities to participate in which including making their own cereal and finding out what happens in the warehouse. Also the children enjoyed seeing where the deliveries arrive and got to see the freezing cold freezer! The pupils returned to school with some unusual fruit to taste. Miss Alderson's class tasted pomegranate and cranberries!

"I enjoyed finding all the different varieties of fruit and learning about cereals," explained Charlotte O'Malley, who is a pupil in Y5.

Clearly, the Tesco visit has inspired the children in Y5. The children rated the visit a 10/10.

Hopefully, there will be another visit next year and all the children have to say a big thank you to Linda!
