Super Science Recognised!

Last month, Normanby Primary School (NPS) were awarded for their efforts of promoting exciting science around the school. The national STEM (Science, Technology, Engineering and Math) Centre has recognised the achievements that we have all been working towards. Over the past few years, NPS has created a Greenpower group (creating its own car that students and staff have drove), created its very own Science club (alongside other local schools) to promote the love of science. The new club, has also began to research ways in which we can create a design to make sustainable energy for the future. Mrs Dunning was has also been extremely pleased with the success of the last Science day and all of the new and exciting experiments which are being completed around the school. Speaking with Normanby News this week, Mrs Dunning stated that:

'I'm really impressed with the new science club and I'm looking forward to their new ideas and inventions over the coming months!'

Keep your eyes peeled for these excellent Science Selfies!

How well do you know? Mrs Brallisford

What's your favourite food and drink?

Mexican food (especially with chillies). Tea

Why did you decide to teach at Normanby primary school?

Because I heard it was a really nice school.

What do you do in your spare time?

Look after my new dog penny as she is only young and this takes up a lot of time but the Brallisford family love her very much!

Which year groups have you worked in?

Years 1, 4, 5 and 6! So nearly them all
