

Normanby News

Welcome to the first edition of Normanby News for Autumn 1

Bike to school week!

Normanby Primary are supporting Bike to School Week which is a great way to kickstart active travel and encourage a healthier school run. Remember to always wear a helmet!
Bike to school week is on the 23rd-28th September, please try to get involved!

Normanby's new barrier!

Normanby primary school has installed a brand-new barrier to make sure that the kids stay safe as they are travelling through the school gates. This way kids are much, much safer. The barrier can only be opened by a member of staff during school hours. Don't worry the gate will be opened before school until 8:15 and after at 4:00, so you still have access to morning and after school clubs

"What has Year 6 been up to?"

Year 6 have had a very exciting week! They have dissected a heart! It wasn't just any heart, it wasn't from a pig or a cow, it was from an OX!

Miss Armstrong was the only brave soul to dissect the heart with the children! They have also made a model out of playdoh to extend their knowledge of the human heart!

Hope (a Y6 student) says to Normanby News *"It was really fun and exciting; you can never have this opportunity anywhere else!"*

Meet the team!
