Ironstone Academy Trust
Remote Learning Policy

March 2021 Review due March 2022
Rev 3

Introduction

At Normanby Primary School, we have produced the following policy guidance in continuing to provide education via remote learning for our children due to the current COVID-19 Pandemic.

Our expectations of children, staff and parents are clearly described in the detail below in order to ensure that, everyone understands that the safeguarding and well-being of our children in receiving a full and thorough education remains paramount.

Aim

The aim of this policy is to describe the use of live streaming applications by school and applications used for submissions of children's work and teacher feedback. Live streaming is being used in the event of an adult or child becoming unwell with Covid-19 meaning a 'bubble' at school must self-isolate and work must be undertaken remotely at home or in the case of a school or national lockdown. This policy will explain the applications we as a school have chosen, how it will be used safely and the expectations of all those who use the application will also be made clear. In addition to live streaming, it will describe the use of the applications used to share activities that support home learning and applications that are used for submissions of pupils' work and teacher feedback.

Microsoft Teams

At Normanby, we use Microsoft TEAMS. We have chosen this application because it best meets the needs of our school and in conjunction with our network provider. Full guidance and joining instructions for Microsoft Teams - <https://bit.ly/30MNI9X> . In addition to this is our school guidance sent directly to parents. The application TEAMS has a number of functions to it.

As a school, we have chosen to disable the following functions for children including:

screen share,

creating calendar events,

initiating calls and

entering calls without admittance from a member of staff.

This is to contribute to the safeguarding of both children and teachers and to limit or prevent information, images and inappropriate content being used or shared through the application on these functions.

It is our expectation that as users of the application both children and staff should report any additional problems directly to the Headteacher or a Designated Safeguarding Lead around the functionality of this application.

Seesaw

Normanby Primary staff will use Seesaw as a secure online learning journal where children can create and upload their work to document their learning. Children will add work like photos, videos, worksheets, drawings and voice recordings to their Seesaw journal. This will enable pupils to benefit from a wider learning resource and support parents with their child's learning. The school will ensure their duty of care and obligations in relation to child protection and statutory guidance continue as they would do if the lesson was taking place within the school setting.

Seesaw is an American company and the majority of data is stored on servers in the USA. Amazon Web Servers actually host their data – they have very rigorous systems in place to protect data. Most especially they adhere to the principles of the Privacy Shield Framework (a US / EU agreement that protects EU data stored outside the USA).

It is a requirement of Seesaw's terms and conditions that we gain parental permission to use their platform. Seesaw has a thoroughly robust privacy policy (<https://app.seesaw.me/about/privacy>) and has committed never to share your child's personal information or journal content.

Live Streaming

Live Streaming will always be carried out within the year group Team and any other access will not be authorised.

Filtering and Monitoring

As part of our ongoing commitment to the safeguarding of both of our children and staff, the use of the application will be heavily monitored by our ICT lead/departments to ensure that any inappropriate use or problems are reported and rectified as soon as possible.

Please ensure that you report any identified issues immediately.

Equipment

The functionality of the application Teams will be disabled or enabled by the school/controller/administrator at the source irrespective of using the school's equipment or your own laptop/computer. Whether you are using your own equipment or the school's equipment we will still seek your agreement to follow and adhere to our school's 'acceptable use' Policy which highlights clear expectations of the use of equipment.

Please ensure that you sign appropriate consent forms.

If you require a computer/laptop/tablet from school please contact us and we will endeavour to help, subject to the resources available to us and other safeguards and/ or practical constraints.

All parties will recognise the constraints that exist on resources and time. School will, for example, be supportive when parents tell us that they have multiple demands on the IT equipment available to them, and parents should be aware that, for example, illness and other factors can impact on staff availability.
